CERTIFICATION
Permission has been granted by The American Kennel Club for the holding of this event under American Kennel Club rules and regulations.

MARK T. MOOTY, Secretary
AMERICAN KENNEL CLUB SCHEDULE OF POINTS

The Points towards a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of both sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its own sex that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused or ordered from the ring by the judge, or from which all awards are withheld, shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

Compliments of a Friend
A scheme showing the classification of the domesticated dog, Canis familiaris, proceeding from the most general category (kingdom) to the most specific category (species). Representative animals are shown at each level, and when a given animal is eliminated at the next rung of the ladder, this means that it belongs to a different category. For example, the tiger, the bear, and the dog all belong to the order Carnivora, but the tiger belongs to the family Felidae, the bear to the family Ursidae, and the dog to the family Canidae. Thus, the tiger and the bear are eliminated when we reach the rung that represents the family Canidae.
