FRIDAY - AUGUST 27, 1993
THE PROBLEM:

- SCRATCHING!
- FLAKY SKIN!
- SHEDDING!
- DULL COAT!

...caused by a lack of polyunsaturated fats in a pet's diet.

THE SOLUTION:

It's a fact—some pet foods are low in polyunsaturated fats. But LINATONE® Food Supplement can make up for the deficiency. Why? Because LINATONE is rich in polyunsaturated fats—nutrients essential to the proper functioning of skin glands.

Skin glands need polyunsaturated fats to help curtail EXCESSIVE SHEDDING. And to produce soft, supple skin that discourages SCRATCHING due to DRYNESS and FLAKING. Polyunsaturated fats are also important to hair lubrication, a must for overcoming the dry look and unpleasant feel of DULL COATS.

Add just teaspoons-a-day of LINATONE to your pet's food. He'll love the taste. And we GUARANTEE—after thirty days—you'll love the results. Or we'll REFUND YOUR PURCHASE PRICE.

LINATONE is sold in pet shops everywhere.
